Excel format respond via email.”

Supporting documentation

Fees

Request category ID	educational
Fee waiver	yes

Explanation	<p>1) Subject: EPA & State NPDES permittee data. 2) Informative Value: Understanding of the NPDES program through education for Students, Volunteers, MS4 Audit Programs, Industrial and Construction compliance. 3) Contribution to Public Understanding: The John Penn Whitescarver, Sr. Foundation, is a 501 (c)(3) private foundation which supports the National Pollutant Discharge Elimination System compliance by training volunteers and university students. 4) Significance: Students seeking environmental science and engineering degrees require training in NPDES permits. Our no-cost Certified Stormwater Student courses provide needed and specific training to these students who will become our future regulatory authority leaders, NPDES permittees, environmental engineers, and environmental consultants. 5) Commercial Interest: Affiliated with The National Stormwater Center which has trained and certified over 8,000 municipal stormwater inspectors across the country. We have also provided required training to thousands of industrial and construction employees. 6) Primary Interest: The Clean Water Act requires citizen participation through education and involvement. We provide training for "Certified Stormwater Volunteers", university-level graduates in environmental science, engineering, and environmental consultants.</p>
Willing to pay	25.00
